Dear Deborah and Stephen:

On behalf of the University of Cincinnati and all the students that you spoke to this past Friday morning, I would like to thank you sincerely. It was a marvelous experience to hear your story first hand relative to our recycling investigation project. Our school was also grateful for lending us your green materials exhibit. I know that it received a lot of attention and consequently left a strong impression in many minds (little green mind seeds were planted).

I am glad you got a chance to visit my design firm, Firehouse Design Team.

I have contacted Sarah Speare, Executive Director of SEG, the Society for Environmental Graphic Designers. She will send you some material and information about our annual meeting in Chicago this summer and the accompanying trade show.

The next time you are coming through our city let me know so we can plan to meet again and exchange more ideas.

Sincerely,

A handwritten signature in black ink, appearing to read 'Robert Probst'.
