Dear Steve:

Congratulations - we did it! I am pleased to share with you the new exciting products from our "Tablescape" line.

Thank you for testing "Confetti" recycled plastic for dishwasher and "temp-mode" - placing a hot dish of lasagna on it.

My personal thanks for all your enthusiasm and for being "Earth Friendly". I am pleased to share this moment with you.

I've enclosed a business card from someone I met in my doctor's office who is interested in recycled products.

Thank you,

Carol Meltzer
