Steve -

Here are the drawings + some photos of the assembly.  
I tried to show enough on the drawings to be clear but not so much as to make a jumble. When we talk next week, we can talk about suggestions/problems/questions either of us may have.

Also, we need to talk about fees, cost, %'s, etc. I know we spoke briefly about this in our initial conversation, but it would probably be a good idea to make it more concrete.

\*\*\*\*\*

In addition to the chair, I've been working on some other pieces of furniture based on the same design/construction system. One in particular is a small end table. I'd like to do a few of them in the green "shrink wrap" plastic. Although the black plastic was too expensive for me to have shipped, I'm assuming that the lighter the material (and the smaller the pieces), the less the shipping costs will be. When we talk about all these other things, maybe you can let me know the cost of material & shipping.
